## Professional Summary

Accomplished Lead Enterprise Architect with over 6 years of experience delivering scalable IT solutions for technology and enterprise organizations. Expertise in cloud computing, low-code development, enterprise architecture, and data management. Adept at problem-solving, product design, and leading technical teams to leverage advanced technologies for optimized business outcomes.

---

## Core Competencies

- **Cloud Computing:** AWS Solutions Architect, Oracle Cloud Infrastructure Architect Associate, Azure
- **Enterprise Architecture:** Enterprise Architecture Design, Roadmap Structuring, Solution Architecture, Technical Architecture, SaaS, PaaS, Data Architecture
- **Low-Code Development:** Zoho Low-Code Builder, Netoloji Low-Code Builder, Power Apps & Automate
- **Ample Knowledge:** React, Java, SQL, Python, Deluge, Terraform
- **BI Tools & Analytics:** Power BI, Zoho Analytics, Looker
- **Product Design & Management:** Agile Methodology, Business Proposal Development, Value Proposition, Technical Presentation, Product Presentation
- **Software Development Life Cycle (SDLC):** SaaS, CI/CD, Caching, Kubernetes, S3
- **Project Management:** Project Planning, Activity Management, Meeting Facilitation, ITIL, Scrum
- **Robotics:** Process Automation and Frameworks
- **Customer Service:** Call Center Services Deployment
- Stakeholder Management, Attention to Details

## Technical Expertise

- **Programming Languages:** Python, Java, Deluge
  - **Frameworks & Platforms:** Kubernetes, CI/CD, SaaS
  - **Databases:** SQL, Oracle, Data Lake Management
  - **Development Tools:** Zoho Low-Code Builder, Netoloji Low-Code Builder, Looker
  - **Cloud Platforms:** AWS, Oracle Cloud Infrastructure
  - **DevOps Tools:** Kubernetes, CI/CD Pipelines
  - **Software Skills:** Power BI, Zoho Analytics, Looker
- 

## Certifications

- **Oracle Cloud Infrastructure Architect Associate | Oracle | 2023**
- **OCI Generative AI Services 2025 Solution Engineer**
- **OCI MYSQL Solution Engineer Specialist**
- **E-Flow Designer (Workflow Designer · Business Process Design · Automation · Designer)**

- **Cisco Cybersecurity Essentials**
  - **Introduction to Packet Tracer (Cisco)**
  - **Zoho(SalesIQ for Implmenters, Analytics for Associates, CRM Certification,**
  - **AWS Certifications:** IAM, Compute Services, Technical Essentials, Well-Architected | 2023
  - **Cisco Certifications:** CCNA Routing & Switching (Packet Tracer), Cybersecurity Threat Intelligence | 2022
  - **Zoho Certifications:** CRM, SalesIQ, Analytics, Low-Code Builder | 2021-2023
  - **Microsoft Application & Desktop Publishing** | Soteria Business School | 2011
- 

## Education

- **National Open University** | Bachelor of Science in Peace Studies & Conflict Resolution | May 2011 – December 2015
-

## Work Experience

### Lead Enterprise Architect

*Work Pillars | Remote | March 2024 – Present*

- Developed business architecture models aligned with organizational strategies, boosting operational efficiency.
- Provided strategic guidance on talent recruitment, ensuring optimal resources for implemented solutions.
- Led the implementation of enterprise architecture models that reduced operational costs and increased productivity.
- Lead implementation and support of enterprise solutions the likes of Oracle, SAP, SAGE for multinational organizations.

### Lead Technology Solution Architect

*TBO Integrated Services | January 2023 – Present*

- Engaged and built relationships with stakeholders to support the delivery of business outcomes.
- Worked with UI Automation Specialists and SAP developers to automate the business structure for a national oil organization in Nigeria.
- Deployed eKYC and AML solutions for financial organizations
- Translated emerging trends and technologies to deliver innovative solutions aligned with the organization's strategy.
- Ensure proposed solutions meet client requirements, expectations, and budget constraints.
- Devised comprehensive architecture for enterprise-scale digital services, ensuring capacity, performance, and system availability improvements.
- Conducted performance analysis and troubleshooting to ensure optimal system functionality on client infrastructure.
- Conducted code reviews, design reviews, and resolved technical challenges with the technical team.
- Built high-level architectural diagrams, defined system components, and chose appropriate technologies and frameworks based on client requirements.

- Provide technical input to support bid and proposal managers in strategy, coordination, and delivery.
- Led a team of architects, developers, and partners to develop custom solutions.

### **Solution Delivery Officer**

*Avetium Consult Ltd | December 2020 – July 2022*

- Managed end-to-end implementation of high-volume change requests, ensuring timely delivery within budget.
- Collaborated with cross-functional teams to define project goals and implement solutions across departments.
- Designed and implemented custom ERP solutions, enhancing operational efficiency and customer satisfaction.
- Spearheaded a comprehensive enterprise solution for FlyAirpeace, improving approval processes by 80% and centralizing data management through a Data Lake.

### **Additional Experience**

- **Technical Support Specialist | Avetium Consult Ltd:** Reduced system downtime by 40% through effective support strategies.
- **Project Supervisor | Avetium Consult Ltd:** Led a team to consistently deliver projects on time, resulting in a 25% increase in client satisfaction.
- **STEM and Coding Educator | TCB Tech:** Trained over 100 students in coding, with many pursuing careers in technology.
- **Strategic Planner | Maribet Consult Ltd:** Contributed to a 30% increase in annual revenue through strategic business development.
- **Logistics Manager | DHL Supply Chain:** Optimized supply chain processes, reducing delivery times by 20%.

### **Data+ Digital Analyst**

*SellMedia Africa | July 2022 – October 2022*

- Analyzed complex datasets to drive strategic business decisions and operational improvements.
- Developed quantitative analysis strategies, increasing productivity and effectiveness of operations.
- Integrated in-house applications for data synchronization and reporting, ensuring accurate data flow.
- Designed and implemented a data collection system, significantly improving data management capabilities.

### **Solution Delivery Officer**

*Avetium Consult Ltd | December 2020 – July 2022*

- Managed end-to-end implementation of high-volume change requests, ensuring timely delivery within budget.
- Collaborated with cross-functional teams to define project goals and implement solutions across departments.
- Designed and implemented custom ERP solutions, enhancing operational efficiency and customer satisfaction.
